## COVENANT and COMMUNION: *The Biblical Theology of Pope Benedict XVI* Scott Hahn

**The key to a bible-based theology  
of great power and beauty**

### SELLING POINTS:

- One the world's best-selling contemporary theological writers
- Lucid presentation of the current Pope's theology

In *Covenant and Communion*, international best-selling author, Scott Hahn, provides a key that unlocks the theology of Pope Benedict XVI, demonstrating its rootedness in scripture.

The first half of the twentieth century saw the emergence of three renewal movements in Catholic thought – the biblical, the patristic, and the liturgical. These movements converge and flourish in Benedict's theology as never before. He brings together the best of modern scientific methods of studying biblical texts with an unrivalled grasp of the history and tradition of the Church.

Scott Hahn's introduction to what he describes as 'a theology of great power and beauty' is vivid and enthralling.

*In this **clearly written and cogently argued** essay, Hahn makes a convincing and highly pertinent case for what Pope Benedict holds to be the crucial challenge for the Church and theology today – the reunification, and thereby the renewal, of exegesis theologically conceived and theology exegetically grounded. Theologically **insightful and surefooted**, this book is one of the best and certainly the most timely and urgent among the recent introductions to the theology of Pope Benedict XVI.*
